

# SOCIAL DISTANCING

## How NOT To Get Sick!!!

### What is Social Distancing?

Keeping your distance from others. That means less high fives, less handshakes, and less hugs!

### Why is Social Distancing Important?

Germs can spread easier the closer you are with others! They can spread from touching, coughing, and sneezing.

### How to Social Distance!

Stay at least 6 feet apart from each other at all times! That is about the length of a bathtub, or 2 adult dogs, or the width of a car.
