What is Social Distancing?

Keeping your distance from others. That means less high fives, less handshakes, and less hugs!

Why is Social Distancing Important?

Germs can spread easier the closer you are with others! They can spread from touching, coughing, and sneezing.

How to Social Distance!

Stay at least 6 feet apart from each other at all times! That is about the length of a bathtub, or 2 adult dogs, or the width of a car.
